MANOHARI GARA

manu.manohari90@gmail.com | +91 6281168229 | Telangana, India, 500072

Summary

Detail-oriented Full Stack Engineer having experience in building scalable web applications using React.js, JavaScript, Express.js, REST APIs, and TailwindCSS. Skilled in developing responsive UIs, backend services, JWT authentication, API integrations, and database-driven workflows. Experienced with AWS deployments, code reviews, CI practices, and delivering maintainable, user-centric applications from requirements through production.

Skills

- ReactJS
- JavaScript
- Tailwind CSS
- Responsive Website Design
- NodeJS(Express)
- REST API
- CI/CD (AWS)
- PostgreSQL
- AWS Services (API Gateway, Lambda, CloudFront, Elastic Beanstalk)
- GIT
- Hosting Setup

Work History

Senior Software Associate at Yotta TechPorts

Oct 2021 – Dec 2025

Key responsibilities

- Partnered closely with design teams to build out reusable UI component libraries, keeping layouts clean and responsive across tricky screen breakpoints.
- Converted Figma mockups into clean, production-ready code with exact visual parity, smoothing out mobile UX and lifting mobile session depth by 15%.
- Led technical walkthroughs for clients, translating business needs into straightforward frontend specs and recommending pragmatic tech choices.
- Speed up page performance by auditing critical rendering paths and caching rules, while fixing broken CI/build flows that had previously slowed releases down by 35%.
- Built out core backend auth and API logic—handled GitHub and Google OAuth handshakes, implemented rotating JWT sessions to prevent token reuse, and locked down the database using custom security groups and SSH-only tunneling.

Software Engineer (PHP) at CSS India Center Pvt. Ltd.

Sep 2019 – Sep 2021

Key responsibilities

- Developed custom page templates and action/filter hooks from scratch, using asynchronous AJAX calls to handle dynamic front-end updates without page reloads.
- Managed everyday hosting and launch operations—migrated sites via cPanel, updated DNS zone files (A, CNAME, MX), installed SSL certs, and monitored live deployments.
- Wrote standalone PHP scripts, custom shortcodes, and hook integrations to expand WordPress capabilities.

PHP Developer at Ayatas Technologies

Mar 2015 – Apr 2018

Key responsibilities

- As a Jr Developer, developed pixel-perfect website themes from scratch using WordPress, MySQL and jQuery. Implemented custom hooks for calculations, data filtering etc.
- Co-ordinated with USA clients for requirements gathering, providing updates and ETAs.
- Troubleshooting websites to improve maintainability and performance.

KEY PROJECTS

CHPTR Platform Development | React.js, Express.js, AWS Elastic Beanstalk, CloudFront

- Designed and executed a highly responsive interface in ReactJS connected with high throughput APIs.
- Developed end-to-end authentication flow, including integration of Oauth(Google,GitHub) with JWT cookie based services and designed scalable APIs.
- Automated deployments for both frontend & backend. Implemented CI/CD pipelines via GitHub, AWS codebuild & codepipeline, Elastic beanstalk & Couldfront.
- Secured Data layer with SSH accessibility.

Quick Fix Golf Platform | React.js, Express.JS, Lambda, API Gateways

- Led the a team for migrating a WordPress application to a decoupled React.js and Express.js based architecture. Worked on rotational token based authentication for GoHighLevel API integration.
- Built and maintained Express.js APIs for the application, handling data processing, user actions, appointment-related workflows, and third-party service integrations.
- Worked with GoHighLevel CRM and calendar APIs to build custom appointment scheduling flows and online booking screens, making it easier for users to schedule appointments.

Boca West Country Club | WordPress, WooCommerce, JavaScript

- Worked on an e-commerce website from scratch for theme development, feature enhancements & integration.
- Integrated custom-post types, widgets and advanced custom-field to customize the UI layer. Created custom hooks to handle information on the frontend.
- Maintaining the website for products, checkout workflows and handling payment integration & callbacks. Ensuring website performance and responsive design.

Commercial CMS Implementations | WordPress, MySQL, jQuery

- Developed multiple commercial platforms using WordPress and portfolio layouts including Biosell Solutions, CA Ripped Fitness, MJ's Cafe & Bakery, and Platypus Wine Tours.

Education

- **Master of Computer Applications (MCA)**
  Noble Institute of Science and Technology, India | 2014
- **Bachelor of Computer Applications (BCA)**
  Sai Institute of Information and Technology, India | 2011
