Work History

Senior Software Associate at Yotta TechPorts

Oct 2021 – Dec 2025

Results-oriented Senior Developer executing hands-on frontend engineering, custom web workflows, and headless CMS integrations. Collaborated across cross-functional marketing, design, and operations teams to translate complex requirements into performance-optimized, secure digital assets.

Key responsibilities

- Developed and maintained Headless WordPress solutions using React.js, REST APIs to deliver scalable and high-performance digital experiences.
- Translated complex Figma designs into responsive, accessible, and secure user interfaces, resulting in a 15% increase in mobile user engagement.
- Managed application deployments through cloud-based CI/CD pipelines, reducing development delivery times by 35% and resource engagement by 20%.

Software Engineer (PHP) at CSS India Center Pvt. Ltd.

Sep 2019 – Sep 2021

Full-cycle web developer focused on custom application engineering, interactive user interfaces, and modular backend development using open-source technologies.

Key responsibilities

- Developed end-to-end responsive web applications, dynamic templates, hooks, and localized business features utilizing PHP, JavaScript, jQuery, and MySQL.
 - Performed precise technical impact analysis, code debugging, and effort estimation for emerging platform upgrades while managing hosting, SSL certificates, and DNS records.
-
