Summary

Detail-oriented Full Stack Engineer experienced in building scalable web applications using React.js, JavaScript, Express.js, REST APIs, and Tailwind CSS. Skilled in developing responsive UIs, backend services, authentication, API integrations, and database-driven workflows. Experienced with AWS deployments, code reviews, CI practices, and delivering maintainable, user-centric applications from requirements through production.

Skills

- React JS
- JavaScript
- ExpressJS
- REST API
- Tailwind CSS
- WordPress
- CI/CD (Vercel & AWS)
- GIT
- Hosting Setup
- Stakeholder Communication & Management

Work History

Senior Software Associate/Junior Lead at Yotta TechPorts

Oct 2021 – Dec 2025

Senior Engineer executing hands-on frontend engineering and client-side architecture. Collaborated closely with designers and product managers to translate business concepts into high-performance, responsive UI components.

Key responsibilities

- Translated complex Figma into pixel-perfect, highly responsive, and accessible user interfaces, resulting in a 15% increase in mobile user engagement.
- Resolved complex technical issues, optimized browser-loading speeds, and managed application deployments through streamlined version control and delivery pipelines to reduce deployment turnaround time by 35%.
- Managed client relationships directly, communicating autonomously via email/calls to define requirements and assist with business logic.

Software Engineer (PHP) at CSS India Center Pvt. Ltd.

Sep 2019 – Sep 2021

Full-cycle web developer focused on custom application engineering, interactive user interfaces, and modular backend development using open-source technologies.

Key responsibilities

- Engineered custom PHP scripts, templates, hooks, and advanced AJAX functions within the WordPress core.
- Integrated third-party REST APIs and secure webhooks for seamless data synchronization.
- Handled server deployments, cPanel tasks, DNS records, and SSL certification management.

PHP Developer at Ayatas Technologies
Mar 2015 – Apr 2018

Key responsibilities

- Designed and developed responsive websites, custom WordPress themes, plugins, and business modules using PHP, jQuery, Bootstrap, and MySQL.
- Managed multiple client projects, performed website maintenance, implemented enhancements, and provided post-deployment support based on client requirements.

KEY PROJECTS

CHPTR Platform Development | React.JS, ExpressJS, REST APIs

- Designed and executed a highly responsive dashboard interface in ReactJS connected with specialized, high throughput REST APIs.
- Built backend APIs using ExpressJS, schemas engineered for low-latency, core CRUD operations, and schema scaling.

Quick Fix Golf Platform | React.js, ExpressJS, AWS Elastic Beanstalk, Codebuild, Code Pipeline

- Led the migration of web platforms from traditional WordPress to a decoupled React.js and Express.js-based architecture, developing RESTful AIs and backend services to support application workflows and third-party integrations.
- Designed and developed Express.js APIs for core application functionality, including data processing, user interactions, appointment workflows, and integration with external services.
- Integrated GoHighLevel CRM and calendar APIs to implement custom appointment scheduling pipelines and online booking interfaces for seamless user interaction.

Commercial CMS Implementations | WordPress, Woo-Commerce, jQuery

- Designed and deployed optimized commercial e-commerce platforms and portfolio layouts including Biosell Solutions, Matt Manero (Commercial Fleet Financing), CA Ripped Fitness, MJ's Cafe & Bakery, and Platypus Wine Tours.

Education

- **Master of Computer Applications (MCA)**
  Noble Institute of Science and Technology, India | 2014
- **Bachelor of Computer Applications (BCA)**
  Sai Institute of Information and Technology, India | 2011
